PHUONG TRAN

INTERN ANDROID APP DEVELOPER

https://phuong-dev17.github.io/
phuong.dev17@gmail.com

ABOUT ME

I'm a dedicated student and developer. As a student, I do not mind putting more hours taking extra courses such as Google training courses, Udemy or watch Youtube channels besides my main course's material. This helps me understand better not only the concept and architecture in Android App development, but also the current best practice from the industry.
As a developer, I put extra focus to details of my applications such as clearing requirements, ensuring logic corner cases, ui responsiveness. I am willing to put more time to just upgrade dependent libraries to latest version to try out the trend in the industry.

I am currently seeking an Android Development internship to sharpen my skills and gain practical experience with the guide from senior mentors.

SKILLS

Kotlin

Android SDK

Git

GitHub

MVVM

Coroutine

REST APIs

Debugging

In app navigation

RoomDB

Preferences Datastore

GoogleMap SDK for Android

Material design 3

HTML5

CSS3

JavaScript

EDUCATION

◆ **ANDROID APP DEVELOPER**
Lerum Vuxenutbildning | Jul 2023 - Ongoing

◆ **SWEDISH**
Folkuniversitetet | 2022 - 2023

◆ **SOCIAL MANAGEMENT**
Academy of Journalism and Communication | 2004 - 2008

PROJECTS

◆ **</> Course projects** | Sep 2023 - Feb 2024
